COUNTY BOARD MEMBER: #3                      NAME: **David Mendenhall**

DOCKET NUMBER: **2018-037**

ADDRESS: **6500 Block of Mechanicsburg Road, Springfield, IL 62712**

PETITIONER: **Adam & Lyndsi Reid**

PRESENT ZONING CLASSIFICATION: **“A” Agricultural District.**

REQUESTED ZONING CLASSIFICATION: **Proposed Parcel 1: “R-1” Single-Family Residence District, a variance to allow the public road frontage to be approximately forty (40) feet instead of the required eighty (80) feet in the “R-1” Single-Family Residence District, and a variance to allow the lot depth to exceed two and one-half (2.5) times the lot width.**

AREA: **72.46 acres**

COMMENTS: **None**

OBJECTORS: **Yes**

PLANNING COMMISSION RECOMMENDATION: **Recommend approval. The LESA score of 152 indicates the subject property is marginal requiring mitigating factors for non-agricultural development. The area has a rural residential trend and the property to be rezoned is heavily timbered making it unlikely to be economically converted to cropland. This property has frontage on both Gabriel Road and Mechanicsburg Blacktop and ingress/egress could be granted to either roadway. However, the owner proposes to utilize Gabriel Road for ingress/egress to the property. According to the Zoning Ordinance, the shortest side of a parcel adjacent to a roadway is considered to be the front yard which in this case is**

**Gabriel Road. The definition also triggers the need for the lot width-depth variance. Absent a variance, this definition would require a minimum of 80 feet of frontage on Gabriel Road. If the owner were required to have 80 feet of frontage on Gabriel Road, more land would be removed from crop production. Staff finds that granting the variances to facilitate the division of land with the ingress/egress on Gabriel Road is more consistent with the trend in the area and provides safer conditions for access to the property. The Standards for Variation are met.**

SANGAMON COUNTY BOARD OF APPEALS  
RECOMMENDATION:

**Approval of Staff Recommendation.**

RECOMMENDATION OF THE BOARD OF APPEALS

THIS MATTER, Coming on for a hearing before the Sangamon County Zoning Board of Appeals of Sangamon County, Illinois, and it appearing to said Board that a petition for an **amendment and variances** of the Zoning Regulations of said County has been filed herein by the above captioned petitioner (s); that legal publication has been made pursuant to law; and that a public hearing was held on **August 16, 2018** pursuant to law; and that said Board took testimony of witnesses, examined the evidence, and otherwise being fully advised in the premises, therefore finds as follows:

1. That said Board has jurisdiction to consider the petition filed herein.
2. That the above-captioned petitioner(s) is the owner(s) and/or has a beneficial interest in, contract to purchase, or is the County Board Member representing the property commonly known as: **6500 Block of Mechanicsburg Road, Springfield, IL 62712** and more particularly described as:

**See Exhibit A**

- 3. That the present zoning of said property is **“A” Agricultural District.**
- 4. That the present land use of said property is **cropland and timber.**
- 5. That the proposed land use of said property is **a single-family residence, cropland, and timber.**
- 6. That the requested **rezoning and variances** of said property are **for Proposed Parcel 1: a rezoning from “A” Agricultural District to “R-1” Single-Family Residence District, a variance to allow the public road frontage to be approximately forty (40) feet instead of the required eighty (80) feet in the “R-1” Single-Family Residence District, and a variance to allow the lot depth to be greater than two and one-half (2.5) times the lot width.**
- 7. That required findings and standards of the Sangamon County Board of Appeals are accurately stated on the attached exhibit(s).
- 8. The evidence adduced at the hearing **does** support the proposition that the adoption of the proposed **rezoning and variances** is in the public interest and is not solely in the interest of the petitioner(s).

IT IS, THEREFORE, the recommendation of the Sangamon County Zoning Board of Appeals to the County Board of Sangamon County that the requested **rezoning and variances** be **approved.**

**SANGAMON COUNTY  
RECOMMENDED - STANDARDS FOR VARIATIONS**

Case #: 2018-037

Address: 6500 Block of Mechanicsburg Road, Springfield

The Zoning Board of Appeals shall not recommend to the Sangamon County Board that the regulations of this ordinance be varied as authorized in F. (1) hereof, unless it shall make findings of fact based upon the evidence presented to it in each specified case:

- (i) that the property in question cannot be economically used or yield a reasonable return, if permitted to be used only for the conditions allowed by the regulations.

**Granting the variances will allow the petitioner to provide safer access to Proposed Parcel 1 off Gabriel Road versus Mechanicsburg Road without taking excess active cropland out of production.**

- (ii) that the plight of the owner is due to circumstances unique to the property and not generally applicable to other property in the area.

**This property has frontage on both Gabriel Road and Mechanicsburg Blacktop and ingress/egress could be granted to either roadway. However, the owner proposes to utilize Gabriel Road for ingress/egress to the property. According to the Zoning Ordinance, the shortest side of a parcel adjacent to a roadway is considered to be the front yard which in this case is Gabriel Road. The definition also triggers the need for the lot width-depth variance. Absent a variance, this definition would require a minimum of 80 feet of frontage on Gabriel Road. If the owner were required to have 80 feet of frontage on Gabriel Road, more land would be removed from crop production. Staff finds that granting the variances to facilitate the division of land with the ingress/egress on Gabriel Road is more consistent with the trend in the area and provides safer conditions for access to the property.**

- (iii) that the variation, if granted, will not alter the essential character of the locality, impair an adequate supply of light and air to adjacent property, increase the congestion of traffic, or diminish or impair property values in the locality.

**Negative impacts are not anticipated in granting the requested variances.**
