RECOMMENDED - STANDARDS FOR VARIATIONS**

Case #: **2018-050**

Address: **20 Pin Oak Lane, Springfield**

The Zoning Board of Appeals shall not recommend to the Sangamon County Board that the regulations of this ordinance be varied as authorized in F. (1) hereof, unless it shall make findings of fact based upon the evidence presented to it in each specified case:

- (i) that the property in question cannot be economically used or yield a reasonable return, if permitted to be used only for the conditions allowed by the regulations.

The property can continue to be used economically without the requested variance. The petitioner placed the shed on the subject property without receiving a valid building permit. The subject property contains buildable area where the shed could be located in order to meet the ten foot side yard setback.

- (ii) that the plight of the owner is due to circumstances unique to the property and not generally applicable to other property in the area.

No particularly unique circumstances exist on the subject property that would justify the requested side yard setback variance.

- (iii) that the variation, if granted, will not alter the essential character of the locality, impair an adequate supply of light and air to adjacent property, increase the congestion of traffic, or diminish or impair property values in the locality.

A negative precedent could be set if the side yard setback variance is granted as the hardship is solely created by the property owner.
