**SANGAMON COUNTY
RECOMMENDED - STANDARDS FOR VARIATIONS**

Case #: **2020-015**

Address: **8300 Block of Book Road, Williamsville**

The Zoning Board of Appeals shall not recommend to the Sangamon County Board that the regulations of this ordinance be varied as authorized in F. (1) hereof, unless it shall make findings of fact based upon the evidence presented to it in each specified case:

- (i) that the property in question cannot be economically used or yield a reasonable return, if permitted to be used only for the conditions allowed by the regulations.

The variance will facilitate separating the proposed residence on a proposed approximately 7-acre tract from the remaining cropland which will be an approximately 76-acre tract.

- (ii) that the plight of the owner is due to circumstances unique to the property and not generally applicable to other property in the area.

The topography of the subject property is rolling and the proposed residence will be located on one of its highest points and setback from the road.

- (iii) that the variation, if granted, will not alter the essential character of the locality, impair an adequate supply of light and air to adjacent property, increase the congestion of traffic, or diminish or impair property values in the locality.

Negative impacts are not anticipated.
