**SANGAMON COUNTY
RECOMMENDED - FINDINGS OF FACT**

Case #: **2020-041**

Address: **2980 Cantrall Creek Road, Cantrall**

- (i) Existing uses of property within the general area of the property in question.

North & West – Residence. East & South – Cropland.

- (ii) The zoning classification of property within the general area of the property in question.

North, East, South, & West – Agricultural.

- (iii) The suitability of the property in question to the uses permitted under the existing zoning classification.

The LESA score of 118 indicates the property is acceptable for non-agricultural development. There is a trend toward residences in the area.

- (iv) The trend of development, within the vicinity since the property was originally classified.

There is a trend toward residences in the area. In 2004, variances were granted west of the subject property to allow the lot width to be met at a greater distance than sixty feet from the road, to allow the lot depth to exceed 2.5 times the lot width, and to allow the lot area to be greater than 5 acres allowed under the one time zoning exception.

**SANGAMON COUNTY
RECOMMENDED - STANDARDS FOR VARIATIONS**

Case #: **2020-041**

Address: **2980 Cantrall Creek Road, Cantrall**

The Zoning Board of Appeals shall not recommend to the Sangamon County Board that the regulations of this ordinance be varied as authorized in F. (1) hereof, unless it shall make findings of fact based upon the evidence presented to it in each specified case:

- (i) that the property in question cannot be economically used or yield a reasonable return, if permitted to be used only for the conditions allowed by the regulations.

The variance is needed to divide the residence from the cropland, which the bank is requiring to refinance the residence.

- (ii) that the plight of the owner is due to circumstances unique to the property and not generally applicable to other property in the area.

The bank is requiring the petitioner to divide the subject property in order to refinance the residence.

- (iii) that the variation, if granted, will not alter the essential character of the locality, impair an adequate supply of light and air to adjacent property, increase the congestion of traffic, or diminish or impair property values in the locality.

Negative impacts are not anticipated.
